WISE
BASELINE ECG

To be completed by Clinical Site

Completion log

Date Received __/__/__
Date Entry __/__/__
Sysid _____
Verification __/__/__
Cleaned __/__/__
Transfer __/__/__

1. Date of ECG___/___/___ ECDAT
   mm dd yy

2. WISE Study? 1 ( ) Yes 0 ( ) No ECWIS

3. Medications taken within 24 hours of ECG:

	Yes 1	No 0	Unknown 2
3.1 Beta Blockers ECBET	( )	( )	( )
3.2 Calcium Antagonists ECCAL	( )	( )	( )
3.3 Nitrates ECNIT	( )	( )	( )
3.4 ACE Inhibitors ECACE	( )	( )	( )
3.5 Other Antihypertensive ECOTH	( )	( )	( )
3.6 Digoxin ECDIG	( )	( )	( )
3.7 Estrogen ECEST	( )	( )	( )
3.8 Progesterone ECPRO	( )	( )	( )
3.9 Diuretics ECDIU	( )	( )	( )

4. Person completing form ECPER

To be completed by Core Center (Pittsburgh): ECRHY

5. Underlying rhythm
   1 ( ) NSR
   2 ( ) SB
   3 ( ) ST
   4 ( ) AFib
   5 ( ) SVT
   6 ( ) VT
   7 ( ) Other ECRHO

ECRHYTH

6. Rate (bpm)_____ ECRAT

7. LVH 1 ( ) Yes 0 ( ) No ECLVH

9/13/99

AXIS: ECAXS

8. Conduction delays:

9. PR ECPR sec. 10. QRS ECQRS sec. 11. Qt_c ECQTC sec.

12. IVCD ECIVC
   0 ( ) None
   1 ( ) LBBB
   2 ( ) Incomplete LBBB
   3 ( ) RBBB
   4 ( ) Incomplete RBBB
   5 ( ) Nonspecific IVCD
   6 ( ) Bifasicular block
   7 ( ) Other _____

13. ST-T waves ECSTT

0 ( ) Normal
1 ( ) ST-T wave changes
2 ( ) T-wave changes
3 ( ) ST elevation
4 ( ) Strain pattern
5 ( ) Other ECSTO

14. Q-Waves:

	Yes 1	No 0
14.1 I ECQI	( )	( )
14.2 II ECQII	( )	( )
14.3 III ECIII	( )	( )
14.4 L ECQL	( )	( )
14.5 F ECQF	( )	( )
14.6 V_1 ECQV1	( )	( )
14.7 V_2 ECQV2	( )	( )
14.8 V_3 ECQV3	( )	( )
14.9 V_4 ECQV4	( )	( )
14.10 V_5 ECQV5	( )	( )
14.11 V_6 ECQV6	( )	( )

15. Core Center person completing form ECCOP

DEFINITIONS

LVH-Cornell Criteria:

Gender specific Cornell Voltage (mm) = (R-wave in aVL + S-wave in V_3 + 8mm)

Cornell voltage - duration product (mm-msec) =
Gender-specific Cornell voltage x QRS duration)
Partition for LVH = 2,436 (mm-msec)

Incomplete BBB: QRS = .10-.12 sec

Q-Wave: Must be ≥.04 sec or ≥25% of R-wave amplitude.

ST-T wave interpretation assumes that patient does not have acute myocardial ischemia (which precludes study entry)

Send batched ECGs monthly to:

Steven E. Reis, M.D.
University of Pittsburgh Medical Center
200 Lothrop Street
