

# How To Make an Artery Model

## What you will need:

one empty paper towel roll

scissors

red construction paper and tape  
or red felt with sticky backing

red modeling clay

yellow modeling clay

## What you need to do:

1. Cut construction paper or felt to fit around the outside of the roll.

2. Tape construction paper or stick felt around the outside of the roll.

3. Roll out thin pieces of yellow and red clay into doughnut-shaped figures.

4. Make one small round ball of the red clay.
