

## Genetic Therapies Sample Social Media Posts

Help bring greater awareness to genetic therapies by sharing these posts on your social media channels.

### Genetic Therapies

Genetic therapies are approaches that can treat genetic disorders, like #SickleCell disease or #Hemophilia, by providing new DNA to certain cells or correcting the DNA. Learn more: <https://go.usa.gov/xzEus>

Clinical trials help find new ways to prevent, detect, or treat diseases that are safe & effective. @NIH\_NHLBI leads and supports many studies aimed at preventing, diagnosing, & treating blood diseases & disorders. Discover more about #ClinicalTrials: <https://go.usa.gov/x6cWC>

#DYK #Hemophilia A is caused by changes in a single gene? A recent @NIH\_NHLBI supported clinical trial demonstrated that #GeneTherapy can help reduce internal bleeding events. Read more <https://go.usa.gov/xtFkp>

Genome editing allows scientists to add, remove, or alter DNA in cells, which could lead to better health outcomes for people with certain inheritable disorders. Learn more: <https://www.nhlbi.nih.gov/health/genetic-therapies>
