## HEALTHY EATING, PROVEN RESULTS

Moving to heart healthy eating may seem difficult, but it doesn't have to be. Here are some tips to make DASH work for you.

### Change gradually.

- If you now eat one or two servings of vegetables a day, add a serving at lunch and another at dinner.
- If you don't eat fruit now or have juice only at breakfast, add a serving of fruit to your meals or have it as a snack.
- Gradually increase your use of milk, yogurt, and cheese to three servings a day. For example, drink milk with lunch or dinner, instead of soda, sugar-sweetened tea, or alcohol.
- Choose fat-free or low-fat (1 percent) milk, yogurt, and reduced-fat cheese to reduce your intake of saturated fat, cholesterol, and calories and to increase your calcium.
- Read the Nutrition Facts label on frozen and prepared meals, pizza, and desserts to choose those lowest in saturated fat and *trans* fat.

### Vary your proteins.

- Choose lean cuts of meat and remove skin from poultry.
- Check the labels on ground meats and poultry and select those with lower saturated fat.
- Serve fish instead of meat or poultry once or twice each week.
- Include two or more vegetarian (meatless) meals each week.

- Aim to fill ½ your plate with vegetables and fruits, ¼ with whole grains, and ¼ with fish, lean meat, poultry, or beans.
- Add extra vegetables to casseroles, pasta, and stir-fry dishes.

### Select nutritious, tasty snacks.

- Fruits offer great taste and variety. Use fruits canned in their own juice or packed in water. Fresh fruits are fast and easy and dried fruits are a good choice to carry with you or to have in the car.
- Try these snack ideas: unsalted rice cakes; nuts mixed with raisins; graham crackers; fat-free and low-fat yogurt; popcorn with no salt or butter added; raw vegetables.

### Make healthy substitutions.

- Choose whole grain foods for most grain servings to get more nutrients, such as minerals and fiber. For example, choose whole wheat bread or whole grain cereals.
- If you have trouble digesting milk and milk products, try taking lactase enzyme pills with the milk products. Or, buy lactose-free milk.
- If you are allergic to nuts, use beans or seeds (such as sunflower, flax, or sesame seeds).
